# Freedom of Information Policy

## INTRODUCTION

One of the aims of the Freedom of Information Act 2000 (FOIA) is that educational establishments should be clear and proactive about the information they make public. To do this we must produce a publication scheme, setting out:

- The categories of information that we intend to publish
- How this information can be obtained
- Whether this information is available free of charge or chargeable

The publication scheme will cover all information already published and any information that will be published in the future. Any information in the publication scheme is available in a paper form at a charge of 5p per sheet. Some information which we hold will not be made public for confidentiality and safeguarding reasons. This scheme conforms to Local Authority guidelines approved by the Information Commissioner.

## AIMS AND OBJECTIVES

The publication scheme has been adopted by Nightingale Community Academy as a way to assist in efficiently handling the data we hold and to provide a transparency in the way we manage the Academy's aims and objectives.

## CATEGORIES OF INFORMATION AVAILABLE

This scheme advises on the information we currently publish and the information we intend to publish in the future. There are three main headings under which the information is available:

- Student documentation and policies
- General Academy policies and information
- Governing Body documentation
