

LTP – KS5 Music

The intent of Music at NCA is to infect pupils with a love for Music itself, the knowledge within it, its themes and narratives across cultures, whilst simultaneously building core skills in appraisal/analysis, performance and composition. Also to teach pupils to develop the transferable skills, employable critical thinking skills and gain the therapeutic benefits of the discipline. Our progressive and challenging curriculum will allow pupils develop their ability to use musical tools, references, quotation, and compositional devices. Students will be supported in developing knowledge recall and skills building through structured activities, scaffolding, self-assessment tools and knowledge organisers. Students will be supported in their own personal development through a variety of extra-curricular activities (i.e. clubs), as well as discussing social, moral, cultural, linguistic and spiritual concepts found within the music.
