

LTP – KS5 PSHE

The intent of the PSHE curriculum is to prepare our learners to become healthy, independent and responsible members of society. The Primary PSHE curriculum aims to help each individual understand how they are developing personally and socially, and tackles many of the spiritual, moral, social and cultural issues that are part of growing up. We provide our learners with opportunities for them to learn about rights and responsibilities and appreciate what it means to be a member of a diverse society. Our learners are encouraged to become critical thinkers and develop their sense of self-worth by playing a positive role in contributing to school life and the wider community. At key stage 5, students deepen knowledge and understanding, extend and rehearse skills, and further explore attitudes, values and attributes acquired during key stage 4. PSHE education reflects the fact that students are moving towards an independent role in adult life, taking on greater responsibility for themselves and others. A key aspect of the key stage 5 curriculum involves preparation for careers as well as a more in-depth analysis of sex, relationships and society. Each lesson in our PSHE curriculum provides accessible opportunities for learners to develop the knowledge, skills and attributes they need to manage their lives as well as incorporating SMSC, British Values and our NCA values and behaviour expectations. In conjunction with our lessons, learners will have the opportunity to develop their personal development and build cultural capital through guest speakers, assemblies, trips, drop-down.
